Summary

Full Stack Developer skilled in React.js, FastAPI, Python, MongoDB, and REST APIs, with experience building scalable web applications and automation solutions. Strong understanding of AI integration, cloud deployment, and modern software development practices.

Skills

Programming	: Python, Basic JavaScript
Frontend	: React.js, HTML, CSS, Tailwind CSS, Bootstrap, ShadCN, Responsive UI
Backend	: FastAPI, Node.js, Express.js, REST APIs
AI	: Generative AI, RAG, Agentic AI, LangGraph, LLM Integration
Databases	: MongoDB, SQL
Cloud & Tools	: AWS EC2, Amazon S3, Vercel, Render, Docker, Git, GitHub

Work Experience

Alonzo AI **July 2026 – Present**
Associate Full Stack Developer Intern

- Own and evolve Editor Lab, a full-stack poster automation platform used by multiple colleges and hundreds of users, accelerating poster creation workflows by approximately **70%** through automated bulk generation from reusable templates.
- Developed REST APIs that enable external applications to generate customized posters programmatically from template JSON, extending the editor into an integrable poster automation platform.
- Enhanced existing sports data-processing workflows by implementing feature updates, fixing bugs, troubleshooting issues, and improving the extraction and structuring of statistics from record books and PDF documents.

Project Work

1. Editor Lab – Poster Automation & API Platform

- Developed a visual template editor that enables users to create reusable base poster templates and generate hundreds of customized posters in bulk for sports statistics and college events.
- Built FastAPI and REST API services that allow external applications to generate posters programmatically from template JSON, extending the platform beyond the editor interface.
- Deployed the platform using AWS EC2 and Amazon S3 for application hosting and storage of generated assets.

Technologies: React.js, FastAPI, Python, MongoDB, REST APIs, AWS EC2, Amazon S3, HTML, CSS

2. PrepMate AI – AI Placement Assistant

- Developed an AI-powered career platform for resume analysis, personalized preparation guides, job recommendations, and application tracking.
- Implemented JWT authentication, PDF parsing, and OpenRouter-based LLM integration with a responsive React interface.

Technologies: React.js, FastAPI, Python, MongoDB Atlas, OpenRouter AI, JWT Authentication, Tailwind CSS

Education

Sri Venkateshwara College of Engineering, Tirupati **2022 – 2026**
B.Tech in Computer Science Engineering (Cyber Security) *CGPA: 9.16/10*

- **Relevant Coursework:** Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Languages Known

English, Hindi, Telugu
